Nothing to prove  
Just a hellish rock'n roll freak  
You call your metal black  
It's just spastic lame and weak

We're too old  
Too cold  
Too old  
And too cold

Second to none  
Like an angel unfucking born  
Down with people  
It's done  
Racket (Wrecked?) Church  
It' stillborn

We're too old  
Too fucking cold

Nothing to prove  
Just a hellish rock'n roll freak  
You call your metal black  
It's just spastic lame and weak

Second to none  
Like an angel unfucking born  
Down with people  
It's done  
Racket (Wrecked?) Church  
It' stillborn

We're too old  
Too cold  
Too old  
and too cold
