I put my silver star shoes on  
And I fly, fly away  
There must be fifty people here  
Why do I feel like you're serenading me

You took my hand  
And suddenly we're Gala and Dali  
Contemplating Persistence of memory

Love is everything  
Love is anything you want it to be  
It's all that we know  
Love is everywhere  
Hear it on the radio  
Love is everything

You write sonnets on the sun  
Every word is a dandelion day  
I kiss you anytime I want  
I make you crystal bouquets, love letter parfait  
You took my hand we're sitting in Monet's viola snow  
Your love is a butterfly under my fedora

Love is everything  
Love is anything you want it to be  
It's all that we know  
Love is everywhere  
Hear it on the radio  
Love is everything

Love is everything  
Love is anything you want it to be  
It's all that we know  
Love is everywhere  
Hear it on the radio  
Love is everything

Time stands still in your arms  
This is my last song  
Lose yourself in me  
Farewell, bravo  
Hello

Goodbye  
Hello

Love is everything  
Love is anything you want it to be  
It's all that we know  
Love is everywhere  
Hear it on the radio  
Love is everything

Love is everything  
Love is anything you want it to be  
It's all that we know  
Love is everywhere  
Hear it on the radio  
Love is everything

Time stands still in your arms  
This is my last song  
(sigh)...
