I have to find out what you know  
I have to find out what you know  
Before I let you go  
I have to find out what you know

I've got a lie detector  
I know methods of Chinese torture  
So make a list of all the things I bought you  
And I'll write you out a cheque

For three hundred thousand dollars  
You'll catch the perfect kiss on film  
Because the kiss sold the movie  
At least it did back in forties

But to me that seems like such ridiculous money  
Why do they need a crew of fifty  
When I don't need support from any unions  
Just your pair of lips?

(Here we go)

They're bugging the phones  
Trying to expose the liars  
In obsequious tones  
There's pincers and pliers  
They're not trying to embrace you  
They're frisking for wires

So if you give your side of the story  
Will I let you go? Negatory  
You know I love to hear you speaking  
But security is leaking

So I simply must find out what you know  
I have to find out what you know  
Before I let you go  
I have to find out what you know

Yeah I've got a lie detector  
I know methods of Chinese torture

Why do Chinese know so much about torture?  
I don't know
