Service station
I hope you're open tonight
It's getting late and
My eyes they search for your light
Please send a sign for me to know
It's not far to go

Radio
Pull songs out of the night air
The slightest sound
Might keep the UFOs from landing here
But I don't care
For St Christopher's
Medal keeps me safe

The neighbours can't collect the mail
Forever
You should be chasing your dreams
Not chasing your tail
Chasing your dreams
Not chasing your tail
Chasing your dreams

Service station
Bathe me in neon, arms and face
With hands that check for rain
A glowing Mother Mary full of grace
When the needle dropped from F to E
Shall remain a dashboard mystery
