You keep telling me the same boy  
Want a big piece of the cake  
If you look out of the window  
You'll see it's a big mistake  
See those eyes and see those faces  
They all want the same as you  
I can only see their madness  
Running wild like you  
Gonna wake up deep in the night  
You'll be crying all on your own  
Gonna realize your doing ain't right  
When it's much to late for turning around

#### **CHORUS**

Love ain't money,no,money can't buy you love  
Love ain't money,no,money can't buy you love  
Don't you see that you are moving  
Further in a dead end street  
Sometimes you will fall with no one  
There to put you on your feet  
You think money is the healing  
Money makes the world go around  
It won't substitute the feeling  
Of knowing good friends around  
Gonna wake up deep in the night  
You'll be crying all on your own  
Gonna realize your doing ain't right  
When it's much to late for turning around

#### **CHORUS +**

Honey,love ain't money,no,money can't buy you love  
Honey,love ain't money,no,money can't buy you love  
It's gotta be,it's destiny,you want to reach prosperity  
It gives you strenght,and sense in life,and everything  
would  
Be allright  
You want it all,you need it all,you wanna build your nest  
of could  
But when you touch the golden calf,you're gonna see  
it's cold  
(Repeat Chorus)
