Some thoughts are weak, I easily forget  
But every now and then, they're messing up my head  
Talking like a child that wants to have it's way  
I'm learning every day  
To speak up and to say  
I'm allright - take a chance on myself today  
Uptight - and it's never enough  
I'm allright - take a chance on myself today  
Uptight - and it's never enough  
I'm allright - take a chance on myself today  
Uptight - and it's never enough  
Allright - take a chance on myself today  
Uptight - and it's never, never, never enough
