"Rosemary Girl"

Time to get aboard
Sail my boat it's getting old
Can't believe the wind is down
Gotta keep rowing
Buy me a captain with a gun
Or else make one up
Time is wearing out
Try a little more come around
Can't believe the feeling's gone
I know it's growing
Find me a reason for a song
Or else make it up
And the wind reaches out for the birds
And the stars they are screaming for rosemary girl
And the waves seem bigger than skies
Saying I'll be as little as rosemary's life
Can't believe it struck you so hard
Don't know what's going on
Buy me a season in the sun
Or else make it up
Buy me a season in the sun
Or else make it up
