

Das Pop "All Night Long"

Visit "[All Night Long](#)" on MotoLyrics.com

i can change the world for you
you consider it done
everything you want me to do
i've only just begun

i can change the world for you
let's just give it some time
i can change the channel too
you just give me a sign

i can rearrange your life
and conduct all your friends
i can change the world if you like
let me try this again

yeah i can change the world for you
you consider it done
everything you want me to do
i've only just begun

all night long
i will always be your maid
please be strong
cause maybe we're all changing

all night long
i will always be your maid
please be strong
cause maybe we're all changing

all night long
all night long
