"Like A Sundial"

Please forgive me I will love you
If you mend my broken heart
I will give you if you let me
All the flowers in the park

I am standing like a sundial
Waiting for you til it's dark
Please remember that we're living
This is what we have to start

Please forgive me I was late
Busy fixing broken darts
I will show if you wait
Shoot one through diamonds and hearts

I am watching like a sheriff
High above you as a lark
Please remind me when I'm dreaming
This is where I have to start
