I have these two people in my life
They are my life, my world
They make everyday of mine a wonderful one
When we are going through troubles
We come out on top, together

I love you guys, my friends, my world
The gifts you bring me, will never be returned
Truly incredible, never fake, my entirety within you
Your smiles, never forgotten
You saved me
You saved me

I can't thank you two enough
For everything you have done
I was on my last string, about to fall hard
You came in and lifted me up
Made me feel wanted, needed
This bond you have made with me is too strong to be
broken now

I love you guys, my friends, my world
The gifts you bring me, will never be returned
Truly incredible, never fake, my entirety within you
Your smiles, never forgotten
You saved me
You saved me

We can make it through anything
I'm always here for you guys
Like you are for me
Always, Always
You saved my life
You saved my life
And you will always be loved by me, and never
forgotten
A.L. & E.B.
Love D.W.
