

Dashboard Confessional "Awake"

Visit "[Awake](#)" on MotoLyrics.com

Awake, through the years it takes to see you
'Til I almost lose my mind
'Cause I'll never be alright
And I'm sorry you had to see this
But I'm such a mess
And I never could forget

I'm scared I'll miss the way we use to talk
And if its all forever lost dont wanna know
I'm scared that you're the one that got away

And i want you here with me
Tonight, will never come

I'm scared I'll miss the way we use to talk
And if its all forever lost dont wanna know
I'm scared that you're the one that got away
And i want you here with me
Tonight, will never come
