I love you but  
I hate you  
Which brings to mind  
How much i love you  
We could have worked this out you know  
In a little room  
In a little locked room  
I'm sorry you had to settle for dave  
The one dementional man  
He's filed under cock sucker  
In my little black book  
Sweetness can  
Rot your teeth  
Bitter sweet  
Cocophony  
But, you hold the key  
You hold the key  
To my little locked room  
You hold the key  
you hold the key  
To my little locked woah woah  
Please let me out soon
