So long sweet summer
I stumbled upon you and gratefully basked in your rays
So long sweet summer
I fell into you, now you're gracefully falling away

Hey thanks
Thanks for that summer
It's cold where you're going
I hope that you're hearts always warm
I gave you the best
I gave you the best that I had
Passed on the letters
And passed on the best that I had

So...
So long sweet summer
I stumbled upon you and gratefully basked in your rays
So long sweet summer
I fell into you, now you're gracefully falling away

I hate the winter
In Lexington
I hate the winter
In Lexington

Lexington
Lexington
Lexington
