Is that all you want  
Is a misery  
Does it keep you safe  
Does it keep you company

You can come too tired to fight  
Sleep here then try again  
Suffocated by the light  
As it all comes zooming in

Yeah that's all you want

Is that all you want  
Is a hologram  
Well I'll tell you what  
That's not what I am

And the day turns into night  
You come back into shadow  
Yes I'll see you next time  
You wanna battle

Yeah that's all you want

And it's all you want

Yeah that's all you want  
Yeah that's all you want  
Yeah that's all you want  
Yeah that's all you want

Yeah that's all you want  
All you want
