Walk around the bathroom  
Fill the sink  
Wander round the kitchen  
Make a drink

To occupy my time  
Is my only wish  
I've rearranged the magnets  
On my fridge

Without you now  
Without you now  
Without you now  
Without you now

Just can't make decisions  
Think what to do  
Turn on my television  
And think of you

Splash my face with water  
Brush my teeth  
Your toothbrush gone  
From where it ought to be

Without you now  
Without you now  
Without you now  
Without you now

Do, do, do, do, do, do
