There's a place where you can light the fire and watch
it burn
Lay it down and lose it all
It's taking me so far beyond the pole and no return
Gave all that I had when hope was gone, hope was
gone
Is this real or is it just another crazy dream
Someday soon will fade away
Feels you like I'm under water and can barely breathe
Dying in the .. I have made

Chorus:

I don't wanna drown in you
I'm thinking that I'm starting to
So when you see me cry like a river
Don't try to hold me down, just save me now
Don't let me drown in you
(Don't let me drown in you)

Said it pulls me in closer than I've ever been
There aint' no way I can't escape
Without a doubt you know that I would try....
Thousand years forever and a day.

Chorus:

But I don't wanna drown in you
I'm thinking that I'm starting to
So when you see me cry like a river

Don't try to hold me down, just save me now
(Just save me now)
Don't let me drown in you

Did I bring this to myself
Can I get out alive ?
Yeah I've given you the best of me
now you want the recipe
What's it gonna take to survive yeah

There's a place where you can light the fire and watch
it burn

Chorus:

I don't wanna drown in you
(Drown in you)
I'm thinking that I'm starting to
(I'm starting to)
So when you see me cry like a river
Don't try to hold me down, just save me now
(Just save me now)
Don't let me drown in you

Don't let me drown in you
Drown in you
Just save me now
Don't let me drown in you
Drown in you
