I would climb any mountain
Sail across the stormy sea
If that's what it takes me baby
To show how much you mean to me
And I guess it's just the woman in you
That brings out the man in me
I know I can't help myself
You're only the world to me

It feels like the first time
It feels like the very first time
It feels like the first time
It feels like the very first time

I've waited a lifetime
Spent my time so foolishly
And now that I've found you
Together we'll make history
And I know it's just the woman in you
That brings out the man in me
I know I can't help myself
You're all that my eyes can see

It feels like the first time
It feels like the very first time

It feels like the first time
It feels like the very first time

It feels like the first time
Like it never did before
Feels like the first time
Like we've opened up a door
Feels like the first time
Like it never will again
Never again

It feels like the first time
It feels like the very first time
It feels like the first time
It feels like the very first time
(It feels like the first time) first time

(It feels like the very first time) oh you opened up the
door
(It feels like the first time) Opened up the door
Oh Yeah
It feels like the very first time

It feels like the first time.
