Tell me what you need
And I will find a way
To stop the bleeding
No, don't let my mistakes

Tell me you're not leaving
And I'll tell you everything you need
To know
Don't throw it all away
Don't see my word told just too late

I don't wanna be left behind
I've been so blind
To all that I've broken
Can we put this part together?
No more empty promises
They don't exist
Just me I'm ending open
I know this will take time
Can you give me one last chance
To make it right?

You say the story is ending
But I think it's time to stop pretending
Now can let into the page
Doesn't your heart remember
When we used to say forever
Don't let go
Don't throw it all away
Don't see this word told just too late

I don't wanna be left behind
I've been so blind
To all that I've broken
Can we put this part together?
No more empty promises
They don't exist
Just me I'm ending open
I know this will take time

Can we put the past behind
Tonight I'll gonna fight for you

Just give me one last chance to make it right
Last chance to make it right

I don't wanna be left behind
I've been so blind

To all that I've broken
Can we put this part together?
No more empty promises
They don't exist
Just me I'm ending open
I know this will take time
Can you give me one last chance
To make it right?
Give me one last chance to make it right
Last chance to make it right
Give me one last chance to make it right

No more promises
They don't exist
Just me I'm ending open
I know this will take time
Can you give me one last chance to make it right
Give me one last chance to make it right
Give me one last chance to make it right
Give me one last chance to make it right
Give me one last chance to make it right
