The engine runs on profit  
it has to be well-oiled  
Obstacles keep on coming  
but you'll never see it fall

Pure solid gold  
they offer for your soul  
Sign here, let's make a deal?

Accept - Adjust - Obey  
Earn your life constrained  
Denied to think at all  
it just slows down your work rate  
You think their deals are fair  
they only grow their market share  
Their goal is to collect  
every dollar they can get

What lies behind the walls  
corrupted ways of mind  
They lead their troops to glory  
greed keeps them blind
