There, there's no room for craziness
There, there's no room for you and I
You and me baby were born on the dark side
And our love for a long hard ride

What's good about love that's easily conquered?
What's good about love that ain't gonna last?
What's good about love that leaves you shattered?
Like windows broken by blast

Chorus:
Bet that's the way to freedom

Bet that's the way for you and I
You and me baby, we're born on the dark side
And our love, for a long hard ride

What's good about love that goes to the highest
bidder?
What's good about love that moves too fast?
What's good about love that pulls the trigger?
Before any questions are asked

(Chorus)
And our love, for a long hard ride
