Bend it, bend it, just a little bit  
And take it easy, show you're likin' it  
And lover, you know that we're gonna hit  
The heights 'cos I'm sure that we're made to fit  
Together just like pieces of a  
Jigsaw puzzle, what's the hustle

Bend it, bend it, just a little more  
Without you, baby, I'm so insecure  
But you can make me feel that I am sure  
I've got a sickness only you can cure  
So just relax, there's stacks of time, but honey  
Please don't tease me - try to please me

Oh-yeah, that's good, oh-yes, ah-yes

Bend it, bend it, just a little bit  
And take it easy, show you're likin' it  
And lover, you know that we're gonna hit  
The heights 'cos I'm sure that we're made to fit  
Together just like pieces of a  
Jigsaw puzzle, what's the hustle

Bend it, bend it, just a little bit  
And take it easy, show you're likin' it  
And ahhh... show me now, yeah that's right  
Ah, oh yeah, yeah that's right  
C'mon now, right right right
