(Prologue)

Taking part's what counts, but you are not around
Never understand my goals for you

Looking back, seems that everyone in my life
I will be waiting for you
I will be waiting for you
Until the evidence conveys another side

Never understand my hopes for you

Sleeveless and miniature
Monster overture
Never be complete unless you know

Looking back, seems that everyone in my life
Will be waiting for me
I will be waiting for you
Until the evidence conveys another side

Have you found your way home?
Have you found your way?
Have you found your way home?
Have you found your way?

(Chapter 1)

I feel wonderous, controlling me seems like a good
idea
I'll do my best to uphold you, but I know that in the night

Ever wondered if it's forever
The moment passes, but I feel you now

I feel wonderous and holy and I know it's all right
I'll do my best to uphold you, but I know that in the night

Ever wondered if it's forever
The moment passes, but I feel you now

All the way down

All the way down

All the way down (repeat through)

So I'll try not to breathe as I hold my head still
The light bends on my face, there'd be tears if I cry
And I'll try not to think what the happy things were
I just think of the stuff that just made me shit scared
And I'll just close my eyes and I'll see everyone
that I'm leaving behind for the dawn of the sun
And I'll try not to feel, yes I'll try not to feel
And I'll try not to feel, all the way down
