I pronounce it aluminium,
'Cause there's an I next to the U and M
Now write it down slowly and read it out fast
She's got eyes, preposterous eyes
I've never had a lover who's my sister or my brother
before

I've been counting on the wrong things
To make life feel alright
You could be my acid queen
Until the end of time
'Cause you can have it all
You're stuck in the middle
Raise them one and all
I was born on a horse thats all

I like to think I'm just a thouroughbred
In all but name and with no horses flesh
We're galloping slowly through this broken glass
She's got hooves, preposterous hooves
I've never had a lover who's my sister or my brother
before

I've been counting on the wrong things
To make life feel alright
You could be my acid queen
Until the end of time
'Cause you can have it all
You're stuck in the middle
Raise them one and all
I was born on a horse thats all

'Cause you can have it all
You're stuck in the middle
Raise them one and all
I was born on a horse thats all
