Where's my ladder gone?  
I'm not climbing  
Curse this paper shell  
It's not helping

Keep it, keep it, keep it  
I don't want you to call me any more  
Cut it, cut it, cut it  
Don't leave me danglin' any more

Look hard enough and you'll find  
Your body's just like mine  
Crippled in all the right places  
And scarred at all the right times

Come one  
Come all  
Come on  
And let's go  
All the way back to the start

Fuck one  
Fuck it all  
Fuck on  
And I want  
Us to go back to the start

With all these lies  
Can you taste it?  
In your exclusion zone  
I'm still naked

With all the shit you chew  
I can't call you any more  
I jump the steel for you  
Not in a wonder any more

So when it comes out, you'll find  
Your cruelty's just like mine  
The city of dreadful night is  
Where I exist in this light

Come one  
Come all  
Come on  
And let's go  
All the way back to the start

Fuck one  
Fuck it all  
Fuck on  
And I want  
Us to go back to the start

Come one  
Come all  
Come on  
And let's go  
All the way back to the start

Fuck one  
Fuck it all  
Fuck on  
And I want  
Us to go back to the start
