How do you suppose we go from east to left in a semi
tangent graph?
Collapsed inside a useless thin-screened fully-coloured
tube

Opinions change, only because we both know, we both
know of
The first collage, and what it held
Experience tells of a sinister plan
Do you remember what you came for?
Do you remember what you came for?
The children

How do you suppose we go, from west to right in a fully
rounded ruik?

Opinions change, only because we both know, we both
know of
The first collage, and what it held
Experience tells of a sinister plan
Do you remember what you came for?
Do you remember what you came for?
The children
