"I Am Everyone"

Happiness is an illusion
Hold me close, deceive me a little more
Until my body feels your magic touch
And seals my skin before it rots
My castle is a great illusion

Now I am everyone (x5)
It's less than I've ever been

Hairy eyes are an obstruction
Help me die, don't wanna rush you
And all I need is a philosophy
Of noise to help me laugh and breathe
My castle is a great illusion

Now I am everyone (x5)
It's less than I've ever been
Now I am everyone (x5)
It's less than I've ever been

This is the one (repeat til end)
