

Biffy Clyro

"The Go Slow"

Visit "[The Go Slow](#)" on MotoLyrics.com

Remember when, the insects fed off all our moments
Can't deny, the structure's failed us and the go-slow
Love her then but killer now, catch me I'm falling down
Love her then but killer now

Decrease the movement, would you switch transition,
switch transition
Decrease the movement, love me 'til I die, I don't
expect more

Remember the time, we lost ourselves to being lonely

Without love, we sing and dance and kill together
Love her then but kill her now, catch me I'm falling
down
Love her then but kill her now

Decrease the movement, would you switch transition,
switch transition
Decrease the movement, love me 'til I die, I don't
expect more
Catch me I'm falling down, catch me I'm falling down...
