What you wanted I can't give you, what you said was  
true now my old friend  
You can have it but I wanted everything

I can't remember now, it was September, now, I can't  
remember, now  
Travis Perkins, I can't remember my head float away...  
Cause I love you and I needed you to stay  
I can't remember now, I can't remember now, Travis  
Perkins now  
Trust me once I think I needed everything to be that  
way  
But I miss you all the same  
And I can remember my head blown away  
Cause I love you and I needed you to stay
