Trees will speak, before you listen oh my god, no one knows that we can bare to stand each other it's not right no it's not fair cause I week anywhere for you would you wait for me.

Bleeding tears is the least of our problems here we can moan, are family's gone blistered feeling is all he haves deseized gorgons and I'd die anytime for you would you die for me...

Keep digging for the rest of your days, say something please it's time to pay, smoke crack for me reach out for me at this time al let you spit in my face

A can only make you see the moon you can touch it but that up to you this is happening because of you stay special brother you stay true...

We can change the world despite all our enemies, were fighting on listen to your heart and say, pray for love it feels like a memory, if we hold on theirs a VICTORY OVER THE SUN!

Collapse in front of all your peers stop bleeding keep blocking your ears, eating baby shrinking black brandy drinking, all now for your demonic haze, I can only make you see the moon you can touch it but that's up to you.

A can only make you see the moon you can touch it but that up to you this is happening because of you stay special brother you stay true...

We can change the world despite all our enemies, were fighting on listen to your heart and say, pray for love it feels like a memory, if we hold on theirs a VICTORY OVER THE SUN, VICTORY OVER THE SUN, VICTORY OVER THE SUN, VICTORY OVER THE SUN, theirs a VICTORY OVER THE SUN...
