She was his girl; he was her boyfriend  
She be his wife; take him as her husband  
A surprise on the way, any day, any day  
One healthy little giggling dribbling baby boy  
The wise men came three made their way  
To shower him with love  
While he lay in the hay  
Shower him with love love love  
Love love love  
Love love is all around

Not very much of his childhood was known  
Kept his mother Mary worried  
Always out on his own  
He met another Mary for a reasonable fee, less than  
Reputable as known to be

His heart was full of love love love  
Love love love  
Love love is all around  
When Jesus Christ was nailed to the his tree  
Said
