Oh stay right here
So I can catch your smile, it's good
Stranger in a crowded room
What did you say your name was? Oh baby
Let's have a drink, and get to the bottom of this hill
And once we see the bottom, we know we'll reach
another hill
But you won't be a stranger in a room
A stranger in this crowded room, with you, a good
good time tonight
Let's go away, all of us, way down
I know I'll dance again
Who knows what tomorrow will bring?
But I know this for sure... that tonight brought a good
time
Good time with me and y'all, it's a good good time
tonight
Oh you're feelin' it too, the light bringin us up
Troubles away, it's a good good time tonight
Ah, a good time right here

(violin solo)

skat session

Just a little more ice and everything's nice *skat*
What do you remember, before the sea was rough and
the sky was grey
Oh but not today, not today, 'cause it's a good good
time tonight

The bad sky will be gone
Oh play on, oh, good good time tonight
Sippin' some wine, with good friends
But you know you're havin' a good good time tonight
A good good time

(saxophone solo)

Let's drink to those who can not be here
Let's drink to those who are gone
Let's drink to those who will be here soon

Let's drink to those we lost along the way
Oh, but this, a tip of your glasses for them all
It's a good good time
It's a good good time... tonight
It's a good good time
It's a good good time
Good good time tonight
A good good time tonight
It's a good good time tonight
