Ooooh, oooooh

Say nothings better, you say nothing better  
Say nothings better than the rest,  
Say hope you're better than the rest,  
Cause you talk a good game,  
Your sensations are suffering,  
I'll make your sensations suffer,  
Through these long sadistic eyes,  
And you see the way I, collide with you  
I hope you see straight,  
Tonight I'm in a rage,  
Tonight I'm in a range,

Say nothings better than the rest  
Cause you talk a good game,  
My sensations are suffering,  
My sensations are suffering,  
Through these long sadistic nights,  
And you see the way I, collide with you  
I hope you see straight,  
Tonight I'm in a rage,  
Tonight I'm in a range,

Once again, you've missed the point!

These strange explosions hit me like a fist of light.  
These strange explosions hit me like a fist of light.  
These strange explosions hit me like a fist of light.  
These strange explosions hit me like a fist of light.  
These strange explosions hit me like a fist of light. (Do  
you believe that I can?)  
These strange explosions hit me like a fist of light. (Do  
you believe that I can?)  
These strange explosions hit me like a fist of light. (Do  
you believe that I can?)  
These strange explosions hit me!
