Swallow your pride and just let me in
I don't wanna hurt you
you know I'm your friend
If this is the outcome of all we've been through
It seems like a waste, I can't take all this waiting for you

I won't wait, I can't wait here anymore
So hard it hurts
But I'll never learn
And you'll never know how much it burns
Won't take it back, I meant every word
But you only hear what you wanna hear
You never believe me cos I'm always wrong
You say that you're leaving, the fire is gone
If I am the monster and this is our song
Sing with me lover and tell me that you're never wrong

I won't wait, I cant wait here anymore
So hard it hurts
But I'll never learn
And you'll never know how much it burns
Won't take it back, I meant every word
But you only hear what you wanna hear
(I'll never learn [x6])
What you wanna hear
(I'll never learn [x6])

I won't wait, I can't wait here anymore
So hard it hurts
But I'll never learn
And you'll never know how much it burns
Won't take it back, I meant every word
But you only hear what you wanna hear

Swallow your pride and just let me in
I don't wanna hurt you
You know i'm your friend
If this is the outcome of all we've been through
It seems like a waste, I can't take all this waiting for you
