The thing I like about you
The way you do what you do
The thing i like about you
God and the devil alone could not have made you up

Two must have worked as one together
So good just want to eat you up
Let me like the real thing
Lick your sticky fingers boy and sing for your dinner
sing

Come on pretty babe make me lose my mind
Everybody get together gonna make love shine

Do you know what it is to feel the light of love inside
you?
And all the darkness falls away
If you feel the way I feel then believe we have the
answer
I've been searching for tonight
Love me baby love me baby shake me like a monkey
baby
forever i'm yours

I can't stop thinking about you
yeah yeah yeah
why would i want to
I like coffee with toast and jelly
But i'd rather be licking from your back to your belly
I think I'm going to

Do you know what it is to feel the light of love inside
you?
And all the darkness falls away
If you feel the way I feel then believe we have the
answer
I've been searching for tonight
Love me baby love me baby shake me like a monkey
forever i'm yours

Cigarettes and coffee broken heart and being lonely

little girls
And ponies are the things that go together
Yes and no you have to choose Romeo and Juliet to
hang their noose
You and me would go good together

Kiss Kiss make a wish
Hope that it comes true
But I ain't waiting for the world to change
Gonna change the world for you

Come on pretty baby make you lose your mind
Everybody get together gonna make love shine

Do you know what it is to feel the light of love inside
you?
And all the darkness falls away
If you feel the way I feel then believe we have the
answer
I've been searching for tonight
Love me baby love me baby shake me like a monkey
forever i'm yours

Come on everybody make me lose my mind
Everybody get together gonna make love shine
