"At Your Door"

Visit "[At Your Door](#)" on MotoLyrics.com

Is it okay if I'm not alright?
Heard a secret, kept me up all night
Nothing around here seems right anymore

Remember when you used to fall asleep?
Well those days they never left me

Is it okay if I come back to town?
I know you said you don't want me around.
I'm hoping I'll seem different at your door
Remember when our world was nearly free?
Well we lost that the day that you left me

Don't you think this could work again?
I hate to think that I may not depend
No one answers your phone anymore

Don't you think we're a little past the war?
No one 'round here gets drunk any more
