Chorus:

Homeless child, put your arms round me  
Got to find shelter at times like these  
Don't need no conscience to know how it feels  
Homeless child, put your arms round me  
Walking like a gypsy, just trying to be free  
Hunted and haunted by the things you see  
promise to the Lord above  
Got to find rescue and somebody to love

Gold and diamonds: don't give me none  
Keep on walking 'till the setting sun  
Don't need no nation, don't follow no one  
Homeless child, where did you come from?  
Hey now, you don't have to walk alone  
Hey now, when you're a long way from home  
Hey now, what's going on?  
Hey now, where are you coming from?  
Chorus
