It's not that you have no style
You didn't touch my part
It's not that you lied
You ripped out my heart

Uh oh, many, many, many fights we had
You were wrong and I'm so mad at you
Guess what's new?

Can't stand your guts
Cause baby we're through
Baby we're through

You know the word on the street
Whore, whore
They say, they say you're never, never ever, on your
feet
Whore, whore

Whoa oh, it doesn't matter what you say
You went and blew our love away
What's new? my balls are blue

Don't want your body, your body
Cause baby we're through
Baby we're through
