"After Today"

Always in trouble
Never to blame
Must be your double
Feel the same
Here it comes again

Doing the wrong thing
Forgetting your lines
Waiting for something
Better to shine
Hate that same old game

After today - fortune then will find you
After today - plane will fly you away
After today - you'll find the one you're after
After today - look out, after today

What kind of rescue?
What will you be?
Where can you take it baby for free?
Break that heart for me!

CHORUS

After today - the fortune fan will find you
After today - they may pry you away
After today - you'll find the one you're after
After today - look out, after today

CHORUS

Today
After today
After toda-ay, hey
Look out, after today
Ah, yeah
Look, ah (laughter)
(spoken : Who's getting dinner?)
(laughter)
