VERSE 1

New angels of promise
We despair
We are the dead dreams
We take the blame
Take us to the edge of time
Take us to the edge of time
We are the fabulous lovers
I am a blind man
She is my eyes

CHORUS (x2)

Suspicious minds
You didn't feel us coming in this lonely crowd
It's always time

VERSE 2

New angels of promise
We despise
Don't fall apart now
We are the silent ones

Take us to the edge of time
Take us to the edge of time
We are the tabular lovers
We listen to the storm

CHORUS (x2)

VERSE 1

CHORUS (x2)

It's always time (repeat)
