The time is now, the past is gone  
Why couldn't you see my love was strong  
I feel so sure inside my mind  
The moment is here  
I'm not gonna waste no time  
I am set, have no regrets  
For the things I've done in my life  
I mend my heart while we're apart  
But there's fire in my eyes  
And it comes as no surprise

No regrets for the times I felt so bad  
I got no regrets for the things I've done in my life  
No regrets for me and you  
'Cause baby it's over and we are through  
No regrets

I've spent time on the road  
It's such a heavy load  
A big chance with no circumstance  
I said, fame and glory were my domain  
The lights went out and it wasn't the same  
I was neglected, I was denied  
How I wish you knew how I felt inside  
Mind was tired, my body was weak  
But you weren't a friend 'cause you didn't speak

No regrets for the times I was denied  
I got no regrets for the times you pushed me aside  
No regrets 'cause you got it going  
Babe, I'm gonna take it nice and slow  
No regrets now

No regrets for the times I felt so bad  
I got no regrets for the things I've done in my life  
No regrets for me and you  
'Cause baby it's over and we are through

No regrets for the times I was denied  
I got no regrets for the times you pushed me aside  
No regrets 'cause you got it going  
Babe, I'm gonna take it nice and slow

Now I'm home and I'm protected  
I'll never let my life be neglected  
By anyone, anything in this world  
I said, I've grown, I've learned my lesson  
Never believe I'm not a person  
In my heart, in mind and soul  
Gonna tell you one more time girl

No regrets for the times I felt so bad  
I got no regrets for the things I've done in my life  
No regrets for me and you  
'Cause baby it's over and we are through

No regrets( I got what it takes ) for the times I was  
denied  
I got no regrets ( no more mistakes ) for the times you  
pushed me aside  
No regrets 'cause you got it going  
Babe, I'm gonna take it nice and slow  
No regrets now

And I'll say it again baby  
How do you like me now

Girl, just go on your way  
I'm sure I will find a girl that will stay  
I said, baby girl, just go on your own  
And don't even worry about hanging up the phone  
Because I got no regrets
