(Ohh)
(Yeah yeah)

Admit it, we're finished,
you don't want me no more
(No)
Like a night mare,
I lived it,
it was too big to ignore
(Ooh)
I hear the sounds
but they pass me by.
My hazard lights
are flashing,
somebody, anyone

Help cause its an emergency.
Someone just wounded my heart.
So help, its like a bad surgery
and now its time to recharge.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.

Abandoned, yeah I'm crying.
Its like you left me so dead
(So dead, so dead)
I'm so broken, my love's frozen.
How do you live with regrets
(Oh woah)
I see the memories flash
before my eyes.
My tank is running empty,
somebody rescue me.

Help cause its an emergency.
Someone just wounded my heart.
So help,
its like a bad surgery

and now its time to recharge.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.

Its unexplainable,
kind of and unattainable
when the person
you love aint enough.
I feel so pitiful,
look at my face
you'll know the pain
is in my eyes.
I need some, help.

(x2)
Help cause its an emergency.
Someone just wounded my heart.
So help
its like a bad surgery
and now its time to recharge.
I'm starting over taking,
One, two, baby steps.
Three, four, baby steps.
Five, six, baby steps.
I'm starting over again.
