Accidentally, on purpose
I dropped my watch behind the tire
Threw my alarm clock inside the fireplace - Yeah

And I put the parental control on
On the news and the weather channel - Uh
I'm outside in my robe
I'm looking for you - Oh

If everything'd stop
I'd listen for your heart
To lead me right to you, yeah
I tried every way I can

But it's harder to hold on
to your hands and the hands of time
I need a hand, girl, I'm trying to hold on
Losing strength in these hands of mine
I need you here
I'm trying to hold on
Standing here, open hands and I
Know I can't do this alone
Hold on, oh hold on
Lemme hold on (to my hands)
Hold on to my hands (don't let go of my hands)
Don't let go

I don't think this is working
Freezing so hard my hands are hurting
Ought to let go in the first place
And I put the phone on the front lawn
Everything that shows time is gone
I'm outside in this cold

Still looking for you

If everything'd stop
I'd listen for your heart
To lead me right to you, yeah
I tried every way I can

But it's harder to hold on

to your hands and the hands of time
I need a hand girl, I'm trying to hold on
Losing strength in these hands of
mine, I need you here
I'm trying to hold on
Standing here open hands and I
Know I can't do this alone
Hold on, oh hold on
Lemme hold on (to my hands)
Hold on to my hands (don't let go of my hands)
Don't ever let me go

If everything'd stop
I'd listen for your heart
To lead me right to you, yeah
I tried every way I can

But it's harder to hold on
to your hands and the hands of time
I need a hand girl, I'm trying to hold on
Losing strength in these hands of
mine, I need you here
I'm trying to hold on
Standing here open hands and I
Know I can't do this alone
Hold on, hold on
Lemme hold on (to my hands)
Can you hold on to my hands
(don't let go of my hands)
Don't let go
Can you hold on to my hands
