If you want a revolution
the only solution evolve(you gotta evolve)
If you want a revolution
the only solution evolve(you gotta evolve)

If your gettin' off track and you wanna get back
may take a lot of work or break your back

If you want a revolution
the only solution evolve(you gotta evolve)

Well there once was a guy who couldn't jump high
till he focused in now he touched the sky
you gotta do more than try to get by
evolution is the key and that's no lie

If you wanna be big and strong you see
you gotta e-v-o-l-v-e

If you want a revolution
the only solution evolve(you gotta evolve)

If you want a revolution
the only solution evolve(you gotta evolve)
If you want a revolution
the only solution evolve(you gotta evolve)

If your gettin' off track and you wanna get back
may take a lot of work or break your back

If you want a revolution
the only solution evolve(you gotta evolve)

Make no mistake about it
you gotta evolve
blood, sweat, and tears around it
and a lot of resolve
there's no way around it
gotta give it your all

If you want a revolution
the only solution evolve(you gotta evolve)

If you want a revolution
the only solution evolve(you gotta evolve)
If you want a revolution
the only solution evolve(you gotta evolve)

If your gettin' off track and you wanna get back
may take a lot of work or break your back
If you want a revolution
the only solution evolve(you gotta evolve)

There once was a girl who the man didn't like
She worked in the day and she trained all night
She prayed for the light gettin' ready for the fight
When the day turned to night, girl shined so bright
Heck two things all the girls wouldn't do
Now every girl in the world play when she wants to

If you want a revolution
the only solution evolve(you gotta evolve)

If you want a revolution
the only solution evolve(you gotta evolve)
If you want a revolution
the only solution evolve(you gotta evolve)

If your gettin' off track and you wanna get back
may take a lot of work or break your back

If you want a revolution
the only solution evolve(you gotta evolve)

No matter what they do they cant break your stride
Evolution is a thing that starts inside
Throw your hands up, clench your fist with pride
Hold your head high no need to hide
E-V-O-L-V-E come on get inside come on ride with me
E-V-O-L-V-E come on get inside come on ride with me

If you want a revolution
the only solution evolve(you gotta evolve)
If you want a revolution
the only solution evolve(you gotta evolve)

If your gettin' off track and you wanna get back
may take a lot of work or break your back

If you want a revolution
the only solution evolve(you gotta evolve)
