"This has once again proved that no routine police stop is actually routine, we saw that last week in Brooklyn of course, with the tragedy over there, and then again last night here in Tottawa, another police shooting"

Here's what they think about you.

"I hate little motherfuckers like you. Little niggers like shit! Think your tough, huh? Blow your head off, your little Smith and Wesson couldn't do shit. How you feel now?"

Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
I like to see them fall, guilty for doing wrong
Middle finger to the law nigger gripping my balls

Now all you hypocrites, witness the injustice
Conversations taped illegally, then they cuff us
U.S. attorneys, public defenders send us off to hard
prison time
Whether you innocent or did the crime
Say you come from ?? pursue your heart
Run your place, put guns in your face
Put you in the coff' for nothing
Now your strugglin', tied up, standing in line-ups
Call your lawyer, they charged you with murder
Why? Coz these liars said you shot another man on his
driveway
Guilty, just for being black on a Friday
Polygraph test your feelings, because your nervous
Charged for murder you didn't commit, then they serve
ya
Fifteen years, maximum security
Slashing, stab wounds, broken bone injuries
You were placed there intentionally
Either you bang or you miss me, listen to me

Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
I like to see them fall, guilty for doing wrong
Middle finger to the law nigger gripping my balls

Im grippin' my Nina, visions of 9/11
Visions of three sixes, no sevens
This is Bushanomics, George is a modern day Ronald
Reagan
I pray to god and to Mr Paegants
Niggers i'm just saying
When do we stop playing?
When do we stop pimping and start spraying?
Taking shots for every cop that popped Shaun Bell
His body laying but they all quit
Because they know that our generation won't do shit!
Nothing, nada
But every rapper is a shotter or a Don Dodder
Or a killer, but you ain't killing nothing
And it's peace unless it's another nigger
Tryna raise boys to Superman
And while i'm at it fuck Poppa Jay Cooperman
It's never justice for blacks but they sin just us to our
right
With grown whites and latinos
I pray to God that you hear this single
This is Banner's middle finger y'all

Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
Cops keep firing in my environment
Middle finger to the law nigger gripping my balls
I like to see them fall, guilty for doing wrong
Middle finger to the law nigger gripping my balls
