Visit "[Harrow Road](#)" on MotoLyrics.com

I saw Elvis washing clothes in the launderette by the
grove
Washing powder on his nose, down the Harrow Road
He was talkin' bout a song
Had it all but got it wrong
Now he wants to join the band and play along
There's so many stories being told, down Harrow Road
Since you were young until your old, down Harrow Road
Down the Harrow Road

There's this bloke who thinks he's handy
Selling globes and home made brandy
He comes all the way from Bendy down to Harrow Road
You see over the cemetery wall from the bridge, about
to fall
Don't let them work in over night
Their men will finish it off
There's so many stories being told, down Harrow Road
Since you were young until your old, down Harrow Road

Down the Harrow Road

Now here comes your brand new sensation
So all you DUBBLE U's get to your battle stations
So nobody try to put I on probation
'Cause this one is coming to all the nation. Do it

So many stories being told, down Harrow Road
Since you were young until your old, down Harrow Road
(Run a combi with a heavy, heavy load)
So many stories being told, down Harrow Road
Since you were young until your old, down Harrow Road
(Come down to Harrow Road, come with me to back in
time)
So many stories being told, down Harrow Road
Since you were young until your old, down Harrow Road
Down the Harrow Road (?)
