#### Verse one

When the town fool is a liar  
And he's preaching to the choir  
You've got a lot of explaining that you do  
You see, no one likes a quitter it makes us oh, so bitter  
So drop your hat and sit for awhile

#### Bridge

Ya see, every now and again we struggle with our past  
We try to stare it in the eye and pray that  
It won't last most questions that get answered,  
They never make much sense  
But I decided that I care,  
And I'll get right down to it and I said

#### Chorus

I've stopped sleepin',  
I told myself I'd never close my eyes again  
I'm not sleepin',  
I'm doin' now the best that I can

#### Verse two

Well, I like it when you sit,  
And get straight down to it  
It suits you more than anyone will admit ?cause  
There's something in the air and no one seems to care  
Nobody will stand up, not even on a dare.

#### Bridge

It's funny how we fool them with tears behind our smile  
So tried and true, we plow right through and hope it's  
worth the while  
Most questions that get answered,  
They never make much sense  
But I decided that I care,  
And I'll get right down to it!
