Please Baby... Let's get it right
I don't think I can take it...one more night.
I know I love you, I love you, I love you as though the
stars are mine
So please Baby, show me that you are mine.
Please Baby...Let's not fight
I don't think I can take it...one more night.
I know I love you, I love you, I love you as though the
stars are mine
So please Baby, show me that you are mine.
Please Baby...Let's keep it right
I wanna make love to you baby
All through the night
I know I love you, I love you, I love you as though the
stars are mine
So please Baby, show me that you are mine.
