Heard the news about the scare in the underwear

Population's getting thin, forget the bomb, its carnal  
sin, yeah

Marriage up, divorce is down, no one wants to fuck  
around

Save the rose, reject romance, Micky Mouse don't drop  
his pants

Now to sexual relations better take a wife

Now that sex is death, better lead a boring life

No time for social kissing, you'll hardly raise a smile

When you think what you'll be missing, iron undies  
back in style

Now where did it start and where will it end?

Be nice to the wife, can't trust your friends

Masculine natural nowadays can offend

Never gonna fall in love again

No no no

Seems like only yesterday, cocaine and ecstasy

Run around and jump on anything you see

A marriage of convenience, saw a doctor went abroad

Saved up a few pennies, ran the wheelchair down to  
Lourdes

Now handsome is as handsome does and I did it  
everywhere

Before the current era I didn't have a care

Bloodstream destination, megavitamin therapy

Artificial insemination, D.I.Y. vasectomy

Oh spaceman, junkfood Dallas, the 20th century

Two World Wars, a Great Depression, this must be  
Germ War III

Now where did it start and where will it end?

Be nice to the wife, can't trust your friends

Masculine natural nowadays can offend

Never gonna fall in love again

No no no

No need for alimony 'cause no one wants to split

Leisure times a gamble, but jogging keeps you fit

Now I packed my bags for China, join the yellow race

Nostradamus had a theory, they're inheriting the place

Blamed it on the Haliens, C.I.A, and KGB

A.R.C. light a shining down on monogamy

New date really hard, promiscure? Change your views

Unless you got a health card, take a tip from Howard  
Hughes

Oh Trocadero transfer, I-Beam closet scene

Cat and mouse with the press, exposÃ© celebrity

Now where did it start and where will it end?

Be nice to the wife, can't trust your friends

Masculine natural nowadays can offend

Never gonna fall in love again

No no no

The tramp of time continues, en masse to wedding  
bells

But they haven't made no breakthrough to helper T.  
white cells

Wholesale Hyper wipe out, technology against the pest

Put away those etchings, sorry baby no contest

Notches and phone numbers, collection flesh as pelts

Stealing cancers thunder, blows below the belt

Oh don't it make you wonder 'bout how the cards are  
dealt

Holy cow

Now where did it start and where will it end?

Be nice to the wife, can't trust your friends

Masculine natural nowadays can offend

Never gonna fall in love again
