Break it on down  
Bless you  
Bless you  
I wanna bless you  
Bless you

Where are you going  
My beautiful friend  
Is this the road that  
You take till the end  
And if we left behind  
Is this the highway  
Of our mankind

Axes spins so round and round we go  
Where we're goin' no one really knows  
Here we here we here we here we go  
Feel the fire  
Way down below

Come on dim the lights  
It's party time  
Switch on the strobe

Do what you like  
Gonna have a ball tonight  
Let's have a ball  
Down at the Globe

Come on dim the lights  
Switch on the strobe  
We're gonna have a ball tonight  
Down at the Globe

Get up and clean your teeth and have a shave  
It's 1 a. m. let's go out to a rave  
One more and before we hit that grave  
It's harder than a microwave wave  
(Chorus)  
Come on dim the lights  
It's party time  
Switch on the strobe

Do what you like  
Gonna have a ball tonight  
Let's have a ball  
Down at the Globe

(Repeat Chorus)

Where's the party officer?

(Repeat Chorus)

Here we go party time break it all down

Where is the failure  
Not in this land  
But still you try to  
Get what you can  
You know that it's bad but  
If you insist  
Here's one more chance now  
That you just missed

(Repeat Chorus)

I believe you  
I believe you

(Repeat Chorus)

Waking up the global warning way  
Nepal cornflakes for my special kay

What's the halth departement got to say  
Don't smoke more than 50 fags a day

(Repeat Chorus)

Come on party on down

(Repeat Chorus)
