Here I am
Feel my heart overflow
I know the road I've taken
Will lead me to the top
And if we all stick together
We can make it last forever
And the light will shine until the end (yeah)
So join in trust and love
Take my hand
(Chorus)
Let's Make History
Only you and me
From now on is all for one
And one for all
Let us reach out for the sky
There's no mountain too high
Let's Make History.

For so long
I've been wasting my time
I tried to do it my way
For the wind to stand alone
Every night was lonely and cold
I had no one to talk to
And a place I could go home
You changed my life for the better
All this hopeless chance still matters
I will take this chance and never let go
I have prayed, I was heard
Now I know
(Chorus)
Let's Make History
Only you and me
From now on is all for one
And one for all
Let us reach out for the sky
There's no mountain too high
Let's Make History.

Never give up
Look ahead

Even when times are getting rough
Don't ever stop
When your best still isn't good enough
Get back on,
Try again
And you will reach
(Chorus)
Let's Make History (History)
Only you and me (Only you and me)
From now on is all for one
And one for all (one for all)
Let us reach out for the sky
There's no mountain too high
Let's Make History
(Repeat)
Let us reach out for the sky
There's no mountain too high
Let's Make History.
